

[KB Front entrance vinyl fence bid.](#)

Monday, January 30, 2012 2:34 PM

Aloha Board;

I received a fax bid from Lowe's for the front wall vinyl fence we discussed at the last Board meeting. Home Depot does not install vinyl fence at this time. Sorry about the delay in getting the bids.

Per Karen and my meeting at the front entrance, we both agreed that a fence should make the 45 degree turn to match the existing stone wall's angle. We felt this would provide the most positive visual impact and also be the most aesthetically pleasing. While reading about it here may not be entirely edifying, we have 30 days to decide to accept the Lowe's bid. If any Board members want to meet at the entrance, Karen or I can explain in person what the bid encompasses.

SANDSTONE VINYL (TAN) \$2,813.17

WOOD TONE VINYL (FAUX REDWOOD TYPE GRAIN) \$3,162.42

**INCLUDES INSTALLATION BY LOWE'S LICENSED CONTRACTOR.
INSTALLER PLANS TO BUILD NEW VINYL FENCE UP FROM THE EXISTING ROCK WALL.
SAMPLES OF THESE TWO SPECIAL ORDER VINYLs ARE AVAILABLE BY VISITING THE CONTRACTOR
SALES AREA AT LOWE'S.**

If anybody has any questions or concerns, please hit the "reply all" button so that everyone on the Board is included in the email tree.

Aloha and best regards,
Dan

Saturday, February 4, 2012 4:32 PM

Based on the majority approval, I will contact VIM on Monday to schedule the check for Lowes.

The faux redwood color is the one that will be installed.

I will report back with ETA for installation completion.

Aloha and best regards,
Dan Judson
Orchids of Olinda, Inc.

VOTES: OK to get Redwood looking fence, Karen, Dan, Marcy, Nancy

We already voted to DO the fence so we don't really need a majority to vote on this. Let's buy it now.
